### CP Urges Support To Cuban Relief

THE COMMUNIST PARTY of the USA, known the world over as the greatest threat to the freedom of the United States, has issued a statement in support of the Cuban people. The statement, issued in the New York City office of the CP, states that the Cuban people have suffered for years under the brutal rule of the Batista regime. It calls for the immediate withdrawal of all American troops from Cuba and the establishment of a free and democratic government in Cuba. The CP also calls for the release of all Cuban political prisoners and the cancellation of all American debts to Cuba.

THE SUPREME COURT'S reversal of the 1954 decision in *Brown v. Board of Education* in Birmingham, N. Y., three times again strikes a blow against the use of state "segregation of the races" statutes against civil rights demonstrators. The decision in this case, *Shelby County v. Citizens for the Unsegregated Schools Committee*, is a landmark in the history of the struggle for racial equality. It is a decision that will have far-reaching consequences for the future of the American South. The Court's decision is a direct challenge to the "separate but equal" doctrine established in *Plessy v. Ferguson* in 1896. It is a decision that will force the South to confront the reality of racial segregation and the need for change.
